

Make your own playdoh!

Recipe for playdoh on the hob--it looks like an utter disaster just before it all comes together, trust me it works!

- 1 cup plain flour
- 1/4 cup salt
- 2 tablespoons cream of tartar
- 1 cup water
- food colouring as desired
- 1 tablespoon veg oil

Mix it all together in a pan:

Cook over a medium heat and cook, stirring continuously for 3-5ish minutes.

It will look like a mess...

But then it will form a ball in the centre of the pot, turn it out and knead lightly on a floured surface. Store in an airtight container or plastic bag!
